Summertime Fire Prevention & Backyard Safety

Social Media Messages/Talking Points/Graphics: Summertime Fire Prevention & Backyard Safety

Practice wildfire safety.

Before lighting a fire, check for fire bans and restrictions. It may be illegal to light a fire due to hot, dry and/or windy weather conditions.

Use nonflammable mulch, like stones, rocks or sand if you are placing it within 5 feet of your home.

Prevent accidental wildfires.

Remove rocks and metal that can spark a fire before you mow.
